

**BAKHTAWAR AMIN**  
MEDICAL & DENTAL COLLEGE

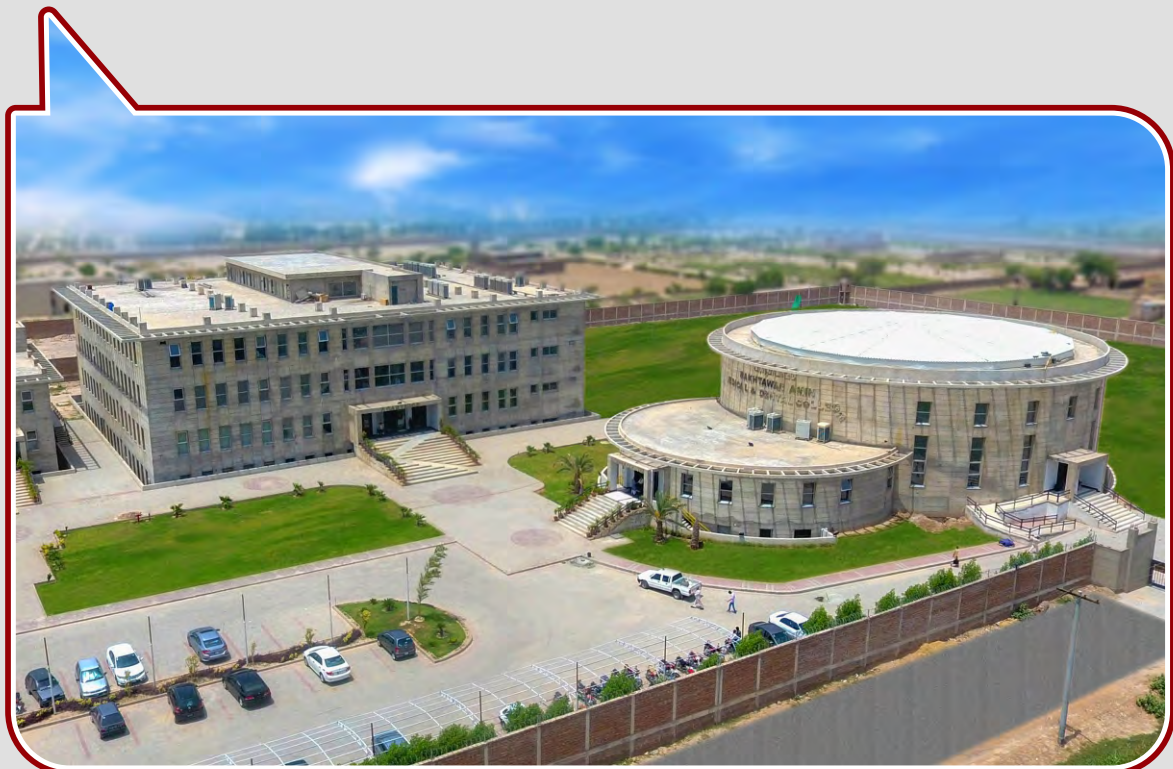

# BAKHTAWAR AMIN

COLLEGE OF MEDICINE

## OVERVIEW

The Bakhtawar Amin College of Medicine's MBBS degree is a blend of clinical and biomedical sciences. Our curriculum applies a variety of approaches to our teaching methodologies including lectures, practical classes, independent learning, clinical skills, and training sessions with patient contact. Clinical training is carried out at the Bakhtawar Amin Memorial Trust Hospital. We believe that exposing students to clinical experiences stimulates their interest in the noble field and reinforces the clinical application of basic sciences.

**Professor Dr. Azhar Javid**

## **A word from the Principal**

I feel immense pleasure in introducing Bakhtawar Amin Medical & Dental College Multan to prospective students & their parents. It's a privilege for me to join this wonderful Institution as a Principal. I was attracted to Bakhtawar Amin because it is full of opportunity and is advancing with confident steps towards a bright future. I would like all members of the college to feel valued and respected as we learn and grow together. It is my firm belief that guidance with understanding and encouragement, offered with warmth and optimism will bring out the best in everyone. We value collaborative learning, formation of positive relationships, communication, and capacity building of our students. I look forward to welcoming you to Bakhtawar Amin Medical and Dental College where you will grow both personally and professionally. My faculty and I am deeply committed to making sure that your time with us is memorable and rewarding.

## CAREER PATHWAY

With the advancements in technology and globalization, the field of medicine has diversified and now, offers a wide variety of career choices like treating patients full-time, teaching, conducting research work, managing hospitals and clinics, and developing healthcare policies. A doctor can work in government or private hospitals, or start their own practice, either with the MBBS basic degree, or after specialization. Moreover, with increasing focus on preventive medicine and management of chronic diseases, doctors can also choose to work in these fields.
